

# Sean Brown

## Elementary Art

Sean Brown has been an artist his entire life. His parents are retired art teachers and his education in the craft began when he was just a toddler on the kitchen floor of his childhood home. As a teenager, he worked at a private art studio tutoring students after school.

Mr. Brown attended the University of Science and Arts of Oklahoma and graduated with a Bachelor of Arts degree in art.

In addition to being an art educator Mr. Brown is a professional muralist, portrait artist, ceramic artist, automotive painter, and art entrepreneur. He sells his own custom prints through an online store that he has maintained for several years.

In his free time, Mr. Brown enjoys playing his many string instruments and throwing pottery in his garage studio.

Mr. Brown hopes to teach a new generation of confident artists who make a difference in the world through peace, harmony, and self expression.
