

# Cassie Driscoll

## Kindergarten

Ms. Driscoll graduated from Cameron University with a Bachelor of Science degree in psychology. While attending graduate school at the University of Central Oklahoma, she did lab hours in the preschool and discovered working with young children was her passion. Ms. Driscoll pursued a degree in early childhood education and received a Bachelor of Science degree.

Ms. Driscoll loves to read and works hard to instill that love in her students. She enjoys teaching kindergarten because it gives her the chance to set up a lifetime love of learning at an early age.

Ms. Driscoll lives in Oklahoma City with her young son and dog.
